

High Demand

***Arctic Race***

High demand but ad-hoc governance allows a no-holds barred, gold-rush approach

***Arctic Saga***

High demand and stable governance lead to moderate development with Arctic ecosystems protected and cultures empowered

Resources

Governance

Unstable, Ad-hoc

Stable, Consistent

***Polar Lows***

Low demand and limited governance creates murky, underdeveloped future

***Polar Preserve***

Low demand and stable governance lead to extensive protection of Arctic ecosystems and cultures

Demand for

Low Demand
