

		Data Needs Stakeholder priorities	
		High	Low
Data Needs Science policy priorities	High	<p><b>Connection</b> – High degree of mutual interest. Opportunity for collaboration. How can connections be established to coordinate joint work? How to ensure clear communication in collaboration, research, and reporting of results?</p>	<p><b>Disconnect</b> – Opportunity for explanation on both sides. Have stakeholders overlooked a key variable or key interactions among variables? Are researchers focusing on an area of little applicable value?</p>
	Low	<p><b>Disconnect</b> – Opportunity for community-directed research. Why was this subject area overlooked? To what extent is it important to the future of the region?</p>	<p><b>Null category</b> – Agreement between stakeholders and researchers. But, has enough investigation into sources of knowledge and perspectives on the subject been made?</p>
